Technical Specifications Table

Feature	Specifications	
Battery Rating	51.2V 36Ah	51.2V 45Ah
Motor Type	BLDC PMSM HUB TYPE	BLDC PMSM HUB TYPE
Max Speed	Low Speed	Low Speed
Battery Type	LiFePo4 (LFP)	LiFePo4 (LFP)
True Range	100 km*	130 km*
Charging Time	3.5 hours	4 hours
Kerb Weight	89 kg	94 kg
Ground Clearance	190mm	190mm
Dimensions [Add L x W x H]	2037mm x 685mm x 1042mm	2037mm x 685mm x 1042mm

Braking System

- Enclosed and durable design resists dirt and moisture, delivering long-lasting, low-maintenance performance in any weather.
- Reliable braking performance at moderate speeds, well-suited for city use and daily commuting.

Warranty Details

- The vehicle comes with a standard warranty of 1 year or 20,000 kilometers, whichever occurs first.
- The battery is covered separately with a warranty of 3 years or 30,000 kilometers (whichever occurs first). This includes protection against manufacturing defects and covers capacity degradation if the battery drops below 70% of its original capacity.
